New Patient Consent Form (Missouri IDD Pilot Program)

Enable Dental has partnered with Missouri Coalition for Oral Health for implementation Teledentistry services for the IDD population. Program goals include improved oral health outcomes, education, and cost reduction.

THE FIRST VISIT AND WHAT TO EXPECT

A new patient typically receives an initial comprehensive dental examination with oral cancer screening, x-rays, and cleaning with fluoride treatment. The patient must receive an exam to become a patient of record and to be seen for a cleaning by the hygienist. The doctor will complete a thorough review of the patient's current oral status and outline any needed treatment at the first appointment. Any treatment recommendations will be communicated & sent via email/mail to the patient or healthcare guardian for approval. After a treatment plan is signed, the manager will coordinate with you to schedule the treatment visit.

PATIENT INFORMATION

First Name _____ Last Name _____ Date of Birth _____

Address _____ City _____ State _____ Zip _____

Gender: O Male O Female

The person filling out this form is the: O Patient O POA O HCS/ICF Provider

Is the patient their own guardian and able to sign consent forms? O Yes O No

If no, who is the patient's legal guardian or medical power of attorney:

Name _____ Relation _____ Contact Information _____

HCS/ICF PROVIDER INFORMATION

HCS/ICF Provider Name: _____

The patient is a participant of: O HCS O ICF

What state waiver is the individual currently enrolled in: _____

The patient currently resides in a: O Group Home O Personal Residence

SERVICE LOCATION

Description of preferred service location _____

Address _____ City _____ State _____ Zip _____

SCHEDULING CONTACT

First Name _____ Last Name _____

Address _____ City _____ State _____ Zip _____

Telephone (Home) _____ Telephone (Cell) _____

Email _____ Relation to the Patient _____

MEDICAID INSURANCE INFORMATION

First Name _____ Last Name _____

Date of Birth _____ MO Health Net ID # _____

OTHER DENTAL INSURANCE

Insurance Carrier _____ Group # _____ ID# _____

First Name _____ Last Name _____

PATIENT MEDICAL HISTORY (CHECK IF THE PATIENT HAS OR HAS EVER HAD)

- ☐ Allergies, hay fever, sinusitis
- ☐ Alzheimer's/Dementia
- ☐ Anemia
- ☐ Arthritis, Rheumatism
- ☐ Artificial heart valves
- ☐ Artificial joints; Surgery Date:_____
- ☐ Asthma
- ☐ Bleeding abnormally with operations or surgery
- ☐ Blood disease, clotting disorders
- ☐ Cancer
- ☐ Chemical dependency
- ☐ Chemotherapy
- ☐ Circulatory problems
- ☐ Cortisone treatments
- ☐ Cough, persistent or bloody
- ☐ Diabetes
- ☐ Emphysema
- ☐ Epilepsy
- ☐ Fainting or fall risk
- ☐ Glaucoma
- ☐ Headaches
- ☐ Heart murmur
- ☐ Heart problems
- ☐ Heart valve replacement
- ☐ Hepatitis
- ☐ Herpes
- ☐ High blood pressure
- ☐ Any immune deficiency
- ☐ Jaundice
- ☐ Kidney disease
- ☐ Low blood pressure
- ☐ Mitral valve prolapse
- ☐ Osteoporosis
- ☐ Osteopenia
- ☐ Pacemaker
- ☐ Radiation treatments (specify if head/neck)
- ☐ Respiratory disease
- ☐ Rheumatic fever
- ☐ Scarlet fever
- ☐ Shortness of breath
- ☐ Sinus trouble
- ☐ Sickle cell anemia
- ☐ Slow healing wounds
- ☐ Stroke
- ☐ Swelling of feet or ankles
- ☐ Thyroid problems
- ☐ Tonsillitis
- ☐ Tuberculosis
- ☐ Tumor or growth on head/neck
- ☐ Ulcer
- ☐ Venereal disease
- ☐ Weight loss, unexplained

Allergies

- ☐ Allergic to Asprin
- ☐ Allergic to Penicillin
- ☐ Allergic to latex
- ☐ Allergic to sulfa drugs
- ☐ Allergic reaction to Novocaine, local, or general anesthetics?

If "Yes" to any of the above, please describe: _____

_____

_____

Is the patient currently taking prescription blood thinners? O Yes O No O Uncertain If "Yes", specify _____

Has the patient ever taken medications or received injections for osteoporosis (bisphosphonates)? O Yes O No O Uncertain

Has the patient ever been prescribed pre-medication for a dental visit? O Yes O No

List any medications that the patient is taking: _____

_____

List any known allergies the patient has: _____

_____

Does the patient have a DNR on-file? (if applicable) O Yes O No O Uncertain

Does the patient exhibit any uncontrolled or erratic movements? O Yes O No If "Yes", specify _____

Primary Care Physician / MD: _____ Contact Information: _____

DENTAL HISTORY

We have quality sedation partners we refer to if formal sedation is required for the patient. Our mission is to provide comprehensive care at 'home' and reduce unnecessary and risky sedation. We will not charge for a procedure if it is not able to be completed, so we offer a NO RISK opportunity to improve the patient's well-being.

Has the patient historically been formally sedated for routine dental exams and cleanings? O Yes O No O Uncertain

Has the patient historically been formally sedated for needed dental treatment? O Yes O No O Uncertain

Does the patient wear dentures (complete or partials)? O Yes O No

Date of the last dental exam? _____

Main concern for dental visit _____

AUTHORIZATION AND RELEASE

This dental consent may be withdrawn at any time. The patient, legal guardian, or healthcare surrogate, if any, authorizes the attending doctor and dental team from Enable Dental's affiliated dental practice to review existing medical records, examine, and provide dental care, if necessary, to the named patient. The patient, legal guardian, or health surrogate, if any, has read and fully understands the General Dental Informed Consent and HIPAA Notice of Privacy Practices. No guarantee or assurance has been made to the patient, legal guardian, or healthcare surrogate, if any, concerning the results, which may be obtained. The patient, legal guardian, or healthcare surrogate, if any, authorizes the attending doctor to provide continued care on the following schedule until dental consent is withdrawn. The patient, legal guardian, or healthcare surrogate, will be notified of any required restorative treatment, based on examination results. Enable Dental will not perform any restorative treatment without written approval from the patient/POA.

By signing below, you are acknowledging that:

- You are either the patient or have full financial and medical legal decision-making capability for the named patient.
- You have read and agreed to the General Dental Informed Consent (page 5). A current copy of the General Dental Informed Consent is also posted on our website for your reference.
- If applicable, you give the care community explicit consent to share patient health information (medical history, medication lists, responsible party information) with us as the patient's healthcare provider. You also allow Enable Dental to send patient information, notes, and post-op information to the care community to facilitate continuity of the patient's overall care and well-being.
- You consent to receiving HIPAA-compliant electronic communications, such as email and text messages regarding treatment, payment, and health care operations.

PRIVACY POLICY CONSENT

Purpose of Consent: You will consent to our use and disclosure of the patient's protected health information to carry out treatment payment activities, and healthcare operations.

Notice of Privacy Practices: Please read them at https://enabledental.com/HIPAA. You have the right to read the Notice of Privacy Practices before you decide whether to sign this Consent. Our Notice provides a description of our treatment, payment activities, and healthcare operations, of the uses and disclosures we may make of your protected health information and of other important matters about your protected health information. We reserve the right to change our privacy practices as described in our Notice of Privacy Practices. You may obtain a copy of our Notice of Privacy Practices at any time by visiting our website, emailing info@enabledental.com, or calling (512) 861-1337. You may reach out to the Privacy Officer, Ben Tiggelaar, at ben@enabledental.com. You have the right to revoke this Consent at any time by giving us written notice of your revocation submitted to the contact person above.

GENERAL DENTAL INFORMED CONSENT

We would like for the patient/POA to have general knowledge of dental procedures. We ask that you review the procedures listed and want you to know that we will have you sign an informed consent prior to each dental procedure.

1. Low Dose X-rays: Low dose x-rays are an important tool to aid the dentist in detecting potential issues and disease not visible to the naked eye. We utilize protective shields and aprons for patient safety. Low dose x-rays are required for all new patients of record and will be taken every 6 months.

2. Drugs and Medication: Antibiotics and analgesics and other medications can cause allergic reactions causing redness and swelling of tissues, pain, itching, vomiting, and/or prophylactic shock (severe allergic reaction).

3. Changes in Treatment: During treatment it may be necessary to change or add procedures because of conditions found while working on the teeth that were not discovered during examination. The presence of dental tooth decay, gum disease, or any dental infection has been shown to affect many other body parts, such as joints and the heart, so it is important to treat any dental infection as soon as possible.

4. Local Anesthesia: Local anesthesia may affect your body such as dizziness, nausea, vomiting, accelerated heart rate, slow heart rate, or various allergic reactions potentially requiring hospitalization. Injury to the nerves that can result in pain, numbness, or tingling to the chin, lip, cheek, gums, or tongue may be present for weeks, monthly and rarely be permanent.

5. Fillings: In some situations, more extensive restoration than originally planned may be required due to additional conditions discovered during tooth preparation. Significant changes in response to temperature may occur after tooth restoration such as temporary sensitivity or pain. If the tooth does not respond to treatment with a filling, further treatment such as root canal therapy or crown may be necessary. Fillings may require periodic replacement with additional fillings and/or crowns.

6. Extractions: Alternatives will be explained to you (root canal therapy, crowns, and periodontal surgery, etc.) The removal of teeth does not always remove all the infection, if present, and it may be necessary to have further treatment. Some of the risks are pain, swelling, spread of infection, dry socket, loss of feeling in teeth, lips, tongue and surrounding tissue that can last for an indefinite period of time (days or months) or fractured jaw. Further treatment by a specialist or even hospitalization may be needed if complications arise during or following treatment which would be your financial responsibility.

7. Crowns and Bridges: Sometimes it is not possible to match the color of natural teeth exactly with artificial teeth. You may wear temporary crowns, which may come off easily so avoid sticky food and candies. You will need to be careful to ensure that they are kept on until the permanent crowns are delivered. The final opportunity to make changes to a new crown, or bridge (including shape, fit, size, or color) must be done at the preparation appointment.

8. Dentures (complete and partials): Removable prosthetic appliances include risks and possible failures. This includes gum tissue pressure, jaw ridges not providing adequate support and/or retention, excessive saliva or excessive dryness of the mouth, and general psychological, behavioral, and physical problems interfering with success. We are not responsible for failures of these types. Breakage is possible by dropping the dentures or chewing on foods that are excessively hard. Full dentures become loose when there is a change in gum tissues. Our obligation is to create a functioning, well fitting device. Patients must wear the device consistently in order for the dentist to make appropriate and accurate adjustments. Any denture fit issues must be brought to our attention within 30 days of the final denture delivery. Adjustments after 30 days are an additional charge.

9. Immediate/Interim Dentures: After the extractions and delivery of the prefabricated immediate denture, there is fast bone loss resulting in space between the dentures and gums. This leads to rapidly increasing looseness and sore spots which must be adjusted frequently. The dentist may recommend a soft or hard reline (additional charge) if the patient experiences discomfort during the healing period to improve fit.

10. Endodontic Treatment (Root Canal): There is no guarantee that root canal treatment will save a tooth. Complications can occur from the treatment and occasionally metal objects are cemented in the tooth or extend through the root, which does not necessarily affect the success of the treatment. Occasionally additional surgical procedures may be necessary following root canal treatment.

11. Complaints: Please contact us directly at info@enabledental.com with any complaints or issues. A manager will handle the complaint and address any issue you may have to your satisfaction. Patients in Texas can submit a formal complaint to: Texas State Board of Dental Examiners, 333 Guadalupe Tower 3, Suite 800, Austin, Texas 78701-3942 or by calling (512) 463-6400.

12. Teledentistry: If allowable in your state, you consent to utilizing synchronous (live chat via video) and asynchronous teledentistry (not live). Asynchronous teledentistry utilizes a dental assistant or dental hygienist to collect clinical data and information in-person on behalf of a licensed dentist. This information is sent asynchronously (not live) to the licensed dentist to review and provide recommendations. The results of this exam are then communicated to the patient or responsible party. The dentist may not see the patient in-person. You may request to communicate in real-time with the dentist about these findings within 30 days of the consult.

13. Clinical Services: All clinical services are rendered by a dentist owned entity including but not limited to Texas Mobile Dentists Inc, Tsang Mobile Dental PLLC, A. Nguyen Dental Corporation, and Scuyler Kurlbaum DDS Mobile LLC.

14. COVID-19: Our clinical teams follow all CDC, state dental board, and OSHA guidelines relating to COVID-19. Read our detailed guidelines at enabledental.com/covid-19. There is a potential risk of exposure with any human interaction given community spread. Our protocols and procedures err on the side of caution.
